

Bryce Armantrout, CDCA

Bryce Armantrout, CDCA

CLINICAL STAFF

Bryce holds a Chemical Dependency Counseling Assistant license in the state of Ohio and is currently working towards a Master of Social Work from the University of Cincinnati. Bryce is completing an internship at the Cincinnati Veterans Health Administration where he works with homeless veterans throughout Hamilton County. Attainment of a Master's of Social Work in 2024 will ultimately enable Bryce to establish an outpatient private practice specializing in the treatment of adolescents with both mental health and substance use disorders. Bryce brings a unique perspective to the ASAP clinical team as a person in recovery. He believes that his experiences combined with education, empathy, and humor are an effective combination when working with the adolescent population. And while working with teens can present unique challenges, Bryce considers himself fortunate for the opportunity.
