

# Teens and Marijuana:

# What's the Truth?

## How Many Teens Really Use?

● Non Users ● Lifetime Use ● 30 Day Use

Lifetime Use = Using at least once during your life

30 Day Use = Using at least once in the last 30 days

## Teens In Need:

10%

of teens are in need of treatment for substance use

90%

of teens who need treatment never get

## Marijuana Causes Many Negative Effects in Teens:

Increases In:

- Risky Sexual Behavior
- Impulsivity
- Withdrawal
- Negative Affect (Mood)
- Cravings with Cues

Decreases In:

- IQ
- Executive Function
- Decision Making
- Attention
- Cognitive Processing Speed
- Verbal Memory

Because teen brains are not fully developed, there is **no safe level of marijuana use for teens.**
